## CPPFES2026 Inspect and test emergency and exit lighting systems **\$460.00**

Thank you for your interest in completing the inspect and test emergency and exit lighting systems training. This unit of competency supports technicians responsible for regularly inspecting and testing the functional operation of emergency and exit lighting.

### **Course Recognition**

CPPFES2026 Inspect and test emergency and exit lighting systems is Nationally Recognised Training, recognised throughout Australia by industry bodies, employers, accreditation schemes, and licencing applications.

### **Licensing/Regulatory Information**

Work in this area must be completed according to relevant legislative, industry, customer and organisational requirements, including occupational health and safety (OHS) policies and procedures.

The technician is not permitted to undertake any functions restricted to licensed trades or occupations such as installation, replacement, maintenance and repair functions.

Licensing, legislative, regulatory or certification requirements apply to these units of competency in some states and territories. For further information, check with the relevant regulatory authority.

Particular states may require additional units and/or the full Certificate II in Fire Protection Inspection and Testing if a licence application is sought.

It is essential to Axiom Compliance Learning to provide quality training and a reduced risk of the COVID-19 virus. We have developed training resources such as online course documentation, interactive templates, procedural and instruction videos to facilitate this training entirely online or face to face whichever is the preferred learning.

This course is in high demand, enrol to ensure placement for zoom training.

Link to enrolment dates available- [Axiom Compliance Learning Training Dates](#)

Payment not required when enrolling; we will contact enrollee and email an invoice.

Payment of the invoice per student will secure placement, and commence, the online component of the course.

### **Program Outline and Assessments**

The course will be delivered using blended learning, which can utilise any combination of the following, face to face, one-on-one and group discussions utilising Zoom platform, online workbooks, and assessments, interactive templates and video tutorials.

The professionally presented reference material and resources help students develop their knowledge of the subject. Training is sequenced to allow a logical progression.

The activities are clearly explained and always relate to the course and industry information, allowing the assessor to ensure that students can apply their knowledge and skills.

## CPPFES2026 Inspect and test emergency and exit lighting systems **\$460.00**

### Procedures after enrolment.

- After enrolling online, we will contact the student to discuss their suitability for training.
- Enrolment confirmation will be emailed, including the invoice.
- Following the receipt of payment, we will confirm receipt via email, including the login details to commence the online component of the course.
- Once the student has logged into our online learning platform, they can access course documentation, instructions, procedural videos & resources. The student has then commenced the course.

**3 months** to complete from the training date.

**Extension** available for \$100- 2months

### Zoom

- Students will receive a **zoom** invitation email a few days before the scheduled zoom training session. The students will have access to their trainer via Zoom platform, either by phone or computer. The level of participation is entirely up to the student.

### Face to Face

- Students will receive correspondence via email and a text message a few days before, containing **face-to-face** course and venue information.

The training coordinator is available to discuss the login, resources, and other ways Axiom can support the student.

### Course requirements

Tasks: Students will undertake a range of practical tasks, typical in the Industry.

Industry Work Performance: Records of inspection and testing activities completed on a prescribed number of sites and emergency lighting.

Some of the required work performance evidence to complete this course is as follows:

- **30 single point emergency escape light fittings or exit signs** across at least **5 different sites**

Written Reports: Written Reports: Using templates and available resources, students will produce a range of written service records based on real testing and inspections.

Knowledge Test: Students will undertake knowledge tests throughout their study, progressively as subjects are covered. Completion of tests/quizzes is required. Students may research the answers from the course training materials and notes as well as relevant references.

## Course Completion

A Statement of Attainment upon successful completion will be issued.

CPD points required by FPAS accredited practitioners can be achieved through this training. Nominal hours=25
