CPP20521 Certificate II in Fire Protection Inspection and Testing

Thank you for choosing Axiom Compliance Learning for your training needs. This course is designed for individuals seeking certification as fire protection inspecting and testing technicians, responsible for inspecting and testing fire extinguishers, fire blankets, emergency exit lighting, and fire smoke doors. As a result, it provides comprehensive and valuable training to become a professional in this field.

Our course is not just about theoretical knowledge. It's about developing practical competencies that are directly applicable to your work. This means you'll be equipped with the skills you need to excel in your role. The focus is on units required for the FPAS Qualified Accreditation test and inspection categories 7. Portable fire equipment and fire hose reels, 8. Fire and smoke doors, 10. Exit and emergency lighting, as well as the entry qualification and units related to measures for Fire Safety Assessors' Qualified Accreditation.

We look forward to supporting you throughout your training journey.

LICENSING/REGULATORY INFORMATION

All work must adhere to applicable legislation and industry standards in this field. It's worth noting that certain installation, replacement, maintenance, and repair functions may only be performed by licensed trades or occupations and not by technicians. Regulatory mechanisms differ between states and territories, so students should confirm any regulatory limitations that may apply in their specific location. By staying informed about regulatory requirements and industry standards, technicians can ensure that they provide the best possible service while also complying with regulations and promoting safety.

UNITS COVERED

BSBOPS203	Deliver a service to customers
BSBPEF202	Plan and apply time management
CPPCMN2002	Participate in workplace safety arrangements
CPPFES2004	Identify and report on types of installed fire safety equipment and systems
CPPFES2005	Demonstrate first attack firefighting equipment
CPPFES2006	Prepare for installation and servicing operations
CPPFES2007	Maintain quality of work and promote continuous improvement
CPPFES2010	Inspect and test fire hose reels
CPPFES2011	Install portable fire extinguishers, fire cabinets and fire blankets
CPPFES2020	Conduct routine inspection and testing of fire extinguishers and fire blankets
CPPFES2026	Inspect and test emergency and exit lighting systems
CPPFES2035	Identify, inspect and test fire and smoke doors
CPPFES2003	Safely move loads and dangerous goods

TRAINING RECOGNITION

The training units provided by Axiom Compliance Learning are nationally accredited and in accordance with the national vocational education and training standards regulated by the Australian Skills Quality Authority (ASQA). This means that employers, industry bodies, licensing, and other relevant organisations throughout Australia recognise the quality of the training. Upon successfully completing this nationally accredited training course, learners are awarded a nationally recognised Full Qualification that confirms their competency in a specific field of study.

PROGRAM OUTLINE

Blended Learning is a teaching method that integrates technology-based online learning with traditional instructor-led face-to-face classroom activities and practical tasks.

FACE-TO-FACE TRAINING

The course is delivered in one, four-day block. 8.30 am to 4 pm

To ensure the quality of the training, the number of participants in each course is limited to 8.

Or

VIRTUAL CLASSROOM (online with a live trainer). Four-day block.

A virtual classroom is a digital platform designed for learning that employs a delivery format such as Zoom. Here, a live trainer facilitates online training sessions, focusing on critical course content and guiding students on how to navigate through the program. This medium enables real-time engagement through audio and video communication, allowing trainers to interact with their students as they participate in learning and assessment activities. 9 am to 3 pm

ONLINE LEARNING

Online learning is completed both within and outside the course, where students research, prepare, and submit their assessments via the Learning Management System (LMS). Students will research, develop procedures, and employ templates with the available resources based on genuine work performances for evaluation purposes. Students will complete interactive online quizzes corresponding to the covered subjects. To research the answers, students can refer to the course training materials, notes & other relevant references.

PRACTICAL TASKS

Students' practical tasks require them to develop various documents, service reports, and outcomes found in the industry. These tasks will be performed in both face-to-face and virtual courses, with some activities conducted in the workplace. The training is structured logically to enable a step-by-step learning process. The activities are presented clearly, directly linking them to course and industry information, allowing assessors to ascertain that students can competently apply their knowledge and skills. The course duration is flexible, with students having up to 12 months to complete workplace tasks.

Some of the required work performance evidence to complete this course is as follows:-

Twenty fire hose reel inspections across a minimum of five different sites, including at least five inspections of hose reels installed in recess cupboards or cabinet

Ten fire extinguishers, including at least one of each of the following- water, dry chemical, carbon dioxide, wet chemicals and foam.

Five fire blankets across two separate buildings

Twenty fire and smoke doors over two different sites

Thirty single-point emergency light fittings or exit signs over five different sites

Please note that some work performance tasks are covered in the face-to-face training.

STUDENT SUPPORT AT AXIOM

To support students on their learning journey, Axiom Compliance Learning provides the expertise of highly skilled and motivated trainers and assessors with current industry experience. These professionals create an interactive, engaging, and supportive learning environment to facilitate learning. Additionally, the student management team is readily available to assist with questions and offer support with online coursework, ensuring that students receive the necessary guidance to succeed in their studies.

At Axiom, we provide comprehensive support to help our students succeed throughout their training, whether completing homework online or tackling workplace tasks.

Zoom Support Sessions

We host open Zoom meetings, where our trainers are available to assist with any questions or challenges you may encounter during your training. These sessions provide real-time support and guidance and are typically scheduled on Mondays and Wednesdays from 5 p.m. to 7 p.m. For specific dates, please check our website.

On-Site Support at our Somersby facility – Friday Student Hub Days

We also offer the chance to visit our new facility in Somersby, Central Coast, NSW, during our Friday Student Hub Days. This dedicated time allows you to:

- Complete your online work with our trainers on hand
- Ask questions and receive personalised assistance in a supportive environment
- Complete your work tasks using on-site resources
- Get away from work or home to focus on your training.

COMPUTER SKILLS

Students must be able to use common office programs, such as Microsoft Word, Excel, and Web browsers. They must also complete our short student induction prior to training, which is essential to understanding the use of the e-learning platform.

COURSE FEE

\$2450 excl. no GST on accredited training.

REGISTERING FOR ENROLMENT

- After you express your interest to admin@axiomcompliance.com.au, we will contact you to discuss your suitability for training.
- Complete the enrolment registration form either on our website or by having our team email it to you.
- Enrolment confirmation will be emailed with the invoice.
- After the invoice is paid, you will receive an email with the login details to start the student induction.
- When students have logged in to our online learning platform, they can access course documentation, instructions, templates, and resources, and are ready to begin the course.
- Students will receive an email confirming details of the face-to-face or online Zoom sessions.
- Your success is important to us, and we're here to help every step of the way.

TRAINING AND ASSESSMENT

The training and assessment rules for nationally recognised units/qualifications are available on training.gov.au. All registered training organisations develop their own training and assessment materials, which must meet these rules. When sourcing a training provider, it is always prudent to investigate whether the provider adheres to training package rules and standards for RTO's (Registered Training Organisation). Be aware that non-compliance by an RTO may result in your qualification/certificate being cancelled, particularly where providers take shortcuts with assessment tasks. Axiom Compliance Learning adheres to the standards for RTO's, which is that we deliver quality training and assessment.

STUDY WITH AXIOM COMPLIANCE LEARNING

Our website contains detailed student information. We encourage all students to review this essential information carefully.

- Register For Enrolment
- Fees and Payment
- Student Support Services
- Unique Student Identifier (USI)
